

Brockwell Community Greenhouses

Sound Trail

What can you hear in the gardens?
Follow our sound trail to find out!

Use the map on the next page to follow our one-way system around the garden and find the 10 signs marked with this symbol  then draw what you hear.

Please be considerate towards other visitors while you are doing this trail.

If there is not space to stop at one of the locations marked on the trail, carry on to the next point or find somewhere else in the garden where you can stand still for a minute.

Thank you!

Don't forget to share your drawings or photos and tag us, we love to see them!

Sound Trail Map

What can you hear on the Sound Trail?

Stand still and close your eyes for a minute at each location marked on the trail.

What is the first sound you hear when you close your eyes?

What else can you hear if you listen hard?

When I did the trail I heard: birdsong, an aeroplane, tennis balls being hit, people walking past, children playing in the park, the crunch of footsteps, wind rustling in the leaves.

Did you hear anything else?

If you have a pen or pencil you could draw some of these things in the boxes.
