

# SUMMER MINI-BEASTS I-SPY

How many of the following can you spot as you walk around Brockwell Park Community Greenhouses? Can you find any of these mini-beasts in your own garden or in the park as you walk home? Tick the boxes when you find them!

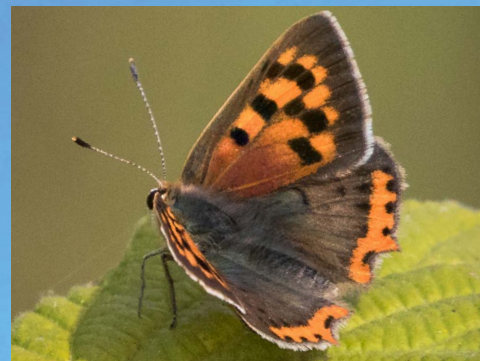

☐ Damselfly

Can you spot a red one too?

☐ Buff-tailed Bumblebee

Or any other bumblebee with a different coloured tail.

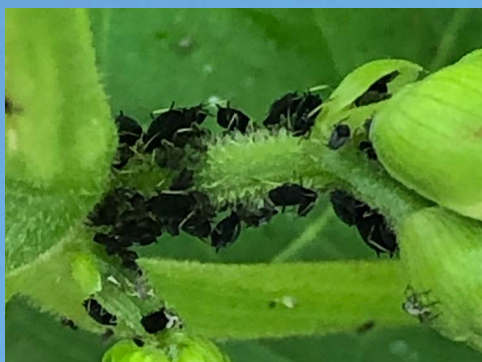

☐ Butterfly

How many different coloured butterflies can you spot?

☐ Ant

Is it black or another colour?

☐ Aphids

These will be on a plant leaf or stem often in large numbers. They may be green, brown or black in colour.

☐ Grasshopper or Cricket

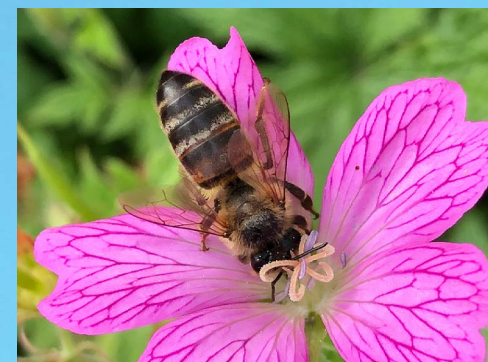

Can you hear them? What sound do they make?

☐ Ladybird

How many spots does it have? Can you spot a ladybird larva or pupa too?

If you don't know what these look like, check when you get home.

☐ Honey Bee

Do you know why bees are attracted to flowers?

# HERB SNAP!

Can you match these herbs to plants in Brockwell Park Community Greenhouses?  
Try looking in and around the walled herb garden and shout SNAP when you spot them!

**Rosemary**

This is my favourite smell!  
What's yours?

**Bay**

Have you used it in cooking?  
It's perfect for putting in  
stews and soups.

**Fish Mint**

Named after its fishy taste.

**Curry Plant**

How do you think it got its  
name? Rub it and sniff!

**Oregano**

Tastes great on a pizza!

**Lemon Verbena**

Smells so good!  
Perfect in tea.

**Eau de Cologne Mint**

Do you like the smell of  
this mint?

**Orange Thyme**

Why do you think it's  
called Orange Thyme?

**Lemon Balm**

It's related to another herb  
on this page. Which one do  
you think it is?

**Sage**

This one is green, but can  
you find any purple sage?
